

Weekly Status Submission Template

Week Number: 8

Date: October 17, 2025

Student Name: Abdullah Siddiqui

Original Plan for This Week: (5 points)

According to my project timeline and previous status report, my plan for Week 8 was to:

- Draft the initial **Results** and **Discussion** sections based on regression and interaction findings.
- Interpret significant relationships between behavioral (exercise, smoking, alcohol use) and socioeconomic (income, education) factors.
- Refine visualizations and tables for inclusion in the thesis paper.
- Begin organizing outputs and documentation for the **Thesis First Draft submission**.

Tasks Accomplished This Week: (10 points)

This week I:

- Completed the **Results** and **Discussion** sections for my thesis draft.
- Interpreted the **education** × **income** interaction, identifying how higher education moderates low-income effects on poor mental health days.
- Organizing and polishing final visualizations (coefficient plots, ROC curve, grouped bar charts).
- Integrated all findings and visuals into the **thesis paper template (APA format)**.
- GitHub repository with all code, tables, and plots for transparency.

Comparison of Planned vs Actual: (10 points)

Week	Planned Tasks	Actual Tasks Completed
8	Write Results and Discussion sections, interpret models, refine visuals, prepare draft	Completed both sections with interpretations, organized visuals, and updated files

Self-Rating of Progress: (5 points)

- ☒ Met the Planned Tasks
- ☐ Did Not Meet the Planned Tasks

I accomplished all planned tasks and began preparing the supplementary materials folder earlier than scheduled.

Plan for Next Week: (5 points)

For Week 9, I plan to:

- Finalize formatting of the **thesis paper** (APA compliance, citations, and structure).
- Write the **Future Directions** section and ensure the abstract matches final results.
- Organize and zip the supplementary materials folder (Draft_Thesis_Submission_AbdullahSiddiqui.zip) for upload.
- Verify all files and links (Google Drive and GitHub) are accessible to Dr. R.
